Centre of a whirlwind of excitement and confusion on the Cunard Line pier, she ended a helter-skelter chase over the liner with a punch to the jaw of an over-curious woman bystander.

Unable to find her stateroom in the tourist class section, Miss Gow and her party of friends were followed by an increasing crowd of curious passengers and visitors up and down decks, first class quarters, tourist class and between decks.

As the chase increased, a middle-aged woman wearing glasses pushed her way through the crowd and

snatched Miss Gow by the arm. "Let's have a look at you," she demanded.

"Let me alone," cried the now thoroughly harassed young woman and launched a small doubled fist to the woman's face.

It was previously reported that the nursemaid had been offered re-employment by Colonel Lindbergh, but that Miss Gow had not definitely made up her mind.

She was said to have expressed the intention of returning home first, in any eventuality.

MAUND'S BIZARRE STORY OF ARCHITECT IS TOLD IN SEATE

Dry Kansas Ideal Of Member

WASHINGTON, Feb. 16.—Mounting the same witness stand today as he had been called a navy contractor, "fixer," A. P. Homer, Washington marine architect, Friday heard from the United States Senate Judiciary Committee a threat of contempt proceedings when he declined to answer all questions concerning his bizarre story.

Under threat, by Senator Bennett Clark, Missouri Democrat, caused Homer to change his mind and he admitted that the latter wanted to destroy building job given to the Bath (Maine) Iron Works.

REFUSED \$45,000
Only a short while before the witness told the committee a story that he had been offered, but refused, a \$45,000 offer to aid in building a small, Florida, shipyard, a site of the 1933 naval building program.

Homer told of his associations with the major firm in the shipbuilding and naval work.

STORY CONTINUED
He referred to Admiral Emory S. Ford, president of the Bath Iron Works, as "Jerry," and to W. S. Newell, president of the Bath Iron Works, as "Boss." He continued, too, a story told by previous witnesses of a "fixer" who had been offered a \$45,000 offer to aid in building a small, Florida, shipyard, a site of the 1933 naval building program.

Just take Aspirin and drink plenty of water—every 2 to 4 hours of first day—less often afterwards...

But be sure you get ASPIRIN. It is made in Canada and all druggists have it. Look for the name Bayer in the form of a cross on every Aspirin Tablet. Aspirin is the trademark of the Bayer Company, Limited.

IT CAN'T BE EVADED

Margins ranging from four to sixteen per cent are to be clipped from the salaries of
employees. The net result will be a saving of
about \$80,000, enough to lower the tax rate one
mill.

Obviously the problem of confederacy tax-
ation is not to be solved along that line. If the
city's employees worked for relief rates of pay
the tax-rate would be increased to the point
where the "fifty mill or less" level to which
council is pledged to reduce it.

The wages paid for money will also have to
be cut down if the city is to make good its
undertaking and restore taxation to payable
proportions. There is really no way to dodge
that issue. It may as well be faced first as last.

"TELLING" OTTAWA

The Glasgow Herald warns the Dominion
Government that Vancouver's insistent demand
for reduced bond-interest rates will be
"telling" in the coming Canadian election.

The Dominion news seeks financial support in
London.

A general broadside to the same effect from
British papers is much to be desired at this
juncture, and will likely enough be forth-
coming.

It may turn a deaf ear to the pleadings
of municipal councils for relief from the de-
pression-doubtful burden of high interest rates.
But the Dominion will likely be a good deal
from the British press to the effect that its
previous credit is nothing but a piece of
paper.

Apparently, nothing but a piece of
paper, and the Dominion will likely be a good
deal from the British press to the effect that
its previous credit is nothing but a piece of
paper.

The more loudly the British press thunders
about damage being done to Dominion
credit, the more likely that parliament will
wake up to the urgency of bringing about a re-
funding of municipal debts in the way exemplified
by the Government of Great Britain.

HIGHWAY SLAUGHTER

"Tommy" Church, Conservative member of
parliament for one of the Toronto seats, thinks
that provincial authorities have not made any
conspicuous success in clearing the highways
of negligent drivers of automobiles.

"Tommy" is the person he employed
to designate a wide variety of motorized means
ranging all the way from "the abominable blind
bug" to the wheel to the one who is posi-
tively homicidal in his conduct toward the
lives and rights of other people.

Mr. Church thinks it is time for parliament
to take a hand in curbing highway slaughter
by providing much more severe penalties for
those who kill or maim through neglect or
something deserving a stronger description.
He characteristically expresses his idea: "Every-
body seems to have the speed bug except the
House of Commons."

There was ventilation for the latter half of
the remark, since the House did nothing about
the matter except talk, and the proposal for
stronger punishment goes over next session.
Which means the next parliament. More is
sure to be heard of it in the interval, and if
it should have paid the whole money—little or
none of this money, it is safe to say, was saved
or "hoarded." It passed immediately into cir-
culation, over the counter of the stock and
through other channels into which money has
to be paid as the price of maintaining life.

As money changes hands at least three times

in the year, a good deal of business was done
in Alberta last year with the money distributed
through the pensioners. Since the Dominion
contributes the bulk of the pension money, and
will in the not remote future contribute all of
it, the business done in the province because of
the distribution of these funds will be a grow-
ingly important factor in the future of the
number of pensioners increases.

Two facts stand out from the return in which
there is nothing to "simulate public pity." A
man or woman must be seventy years old and
utterly without means in order to get a pension.
And the average pension paid last year was
only \$17.86 per month. The age limit will have
to come down and the allowance go up before
Canada's old age pension system will be some-
thing to boast about.

Forty Years Ago

From the Files of The Edmonton Bulletin

Today is hot and sunny. The back of the
winter has been broken.

J. C. Couper, who has been the proprietor of the
Calgary Tribune.

Rev. E. Eberhart preaches in German in the
first hall every third Sunday.

Major Griesbach has been appointed honorary
aide de camp to the Governor General.

W. Humbertson has withdrawn his appeal in
his case against the Edmonton Ferry Co. and
has decided to take proceedings against the
town on the ground that the age limit will have
to come down and the allowance go up before
Canada's old age pension system will be some-
thing to boast about.

The Old Man's Knoll, a conspicuous hill in
the Clover Bar settlement, has been purchased
from the Scottish and Ontario Land Co. by
W. J. Sufel.

Ottewill & Co. have secured a timber
lot comprising 180 acres, near the mouth of
Cooking Lake and will commence sawing
there with their portable mill immediately.

THIRTY YEARS AGO

T. H. Crookall has taken a position on the
office staff of the city.

Lbau-Bussard's third Pacific squadron has
left for the coast of Alaska, and the Japanese
somewhere beyond the Indian ocean.

The new aldermanic body had its first ses-
sion with the immortal dog problem on Tuesday
evening, and the dog problem was the only
subject but not signally triumphant. The dog
catcher had impounded a "tagless" collie that
followed its master into town, and the council
decided to fine the owner.

The city council will experiment with
wooden wire-wound water pipe.

The C.P.R. will build a branch line between
Subway and Toronto, which will shorten the
distance by 60 miles between Toronto and
Winning.

J. D. McVeen's survey party left today to
locate the G.T.P. route about 100 miles east
of the city.

Winning: Calgary is preparing for a sys-
tematic fight for the capital of the proposed
province of Alberta. The city is anxious to
be formed all over Alberta with the object
of placing the seat of government in that city.

Ottawa—The House of Commons debated
the action of the government of British Colum-
bia in purchasing the submarines in Seattle.

London—The U.S. ship Wilhelmina, en
route to Germany with supplies, entered Fal-
mouth because of bad weather and is being
detained as carrying contraband.

Lieut. Col. Osborne, who took the Edmon-
ton Fusiliers to England, returned to the city
yesterday.

Sofia—Bulgaria has decided to remain
strictly neutral.

Washington—The United States has warned
Great Britain that the use of the United States
flag by British vessels would be viewed with
great concern, and has warned Germany that
the same would be true.

TEN YEARS AGO

Chicago—Russell T. Scott, former head of
a Canadian \$10,000,000 concern floated to build
a \$30,000,000 bridge between Detroit and
Chicago, was convicted of the murder of
Joseph Maury.

Moos Jaw—A Moose Jaw bull dog, mis-
named "Hand" in earlier days, was destroyed
by providing much more severe penalties for
those who kill or maim through neglect or
something deserving a stronger description.

The Passing Show

By J. S. COUPER

What a lovely place is sunny Alberta in
mid-February with the skies blue, the sun shin-
ing, the thermometer only a few degrees below
the freezing mark and everybody smiling and
looking forward to early spring. I'd taken a
sort of "bus-driver's holiday" in the early part
of this week, working my way through the
city on several days in advance and making a
trip down the C.N.R. line towards
Edmonton to meet people and see
more of the country than one
gets from the windows of a
railway carriage. Friends at
Edmonton and Jasper were
enough to arrange meetings
for me and accept of my
visits. Only the audi-
ences fell half as pleased
as I did over it. It will be a temptation to re-
peat the experience in other directions.

Jasper has so many beauties and interests,
I'll have to leave mention of my visit there to
a later article, and deal first with the visit to
Edmonton. Edson is near the outlet of the "coal
branch." A visit to the mining towns and the
relict camps at Cammin and Mountain Park on
the coal branch was objective, and the pas-
senger train runs only on alternate days. It
takes six and a half hours to make the 71 miles
to Edmonton, so I had to leave the coal branch
visit for another occasion. From accounts given
me at Edson the two camps are no credit to our
civilization.

An illustration of the deceptiveness of
towns from railway cars before I'd been on the
train ten minutes. A middle-aged couple who
were travelling in the first class, sitting in their
section in the train pulled out of Ed-
monton in the dim dawn of 7 a.m. The man
peered through the window panes as the train
drove through the dismal valley of the coal
branch and railway boarding houses northwest
of the city and reported back, "Not much of a
place. Heavens, I had to leave the coal branch
visit for another occasion. From accounts given
me at Edson the two camps are no credit to our
civilization."

Until I'd walked a few blocks north of the
railway track in Edson into the residential dis-
trict, my picture of the railway town wasn't
much different from that obtained by cross-
Canada travellers. I'd been told that Edson was

A Weekly Column Dedicated to the Youth of Alberta by the Edmonton Young Men's League Club

THERE is an overworked phase which has been upon the shoulders of almost every political leader at one time or another during the past five years. The phrase "New Deal" has had other words substituted for it to suit the different exigencies but the ingredients have been essentially the same.

In each case it is promised that the application of this "New Deal" would provide a cure for the ills of the world; to date many of the authors have had the opportunity to put the scheme into practice, but the results in each case have been the same, in other words the scheme has failed.

It is true that the prime factor in the failure has been that but that only partly explains the thoroughly understanding the wisdom of the civilized human mind before embarking upon any cure for the depression.

Today the different people who compose this highly complex body of nations which make up our world, have more and more developed an intense nationalism which has a tendency to drive us apart upon any attempt by one of the constituent units to do anything for the benefit of the whole.

The truth of this has been amply demonstrated in our own country. Canada we have made ourselves, ourselves, agriculture and manufacturing, the attempt to improve the condition of the farm population by stabilizing the price of wheat, at once had the effect of limiting the sale of that commodity by the future prospect that the farmers benefit will be at the expense of the rest of the nation.

The tariff raised for the protection of our industries had the immediate effect of making the foreigner pay for the goods of our country, but it must be said that the tariff has also had the effect of making the foreigner pay for the goods of our country, but it must be said that the tariff has also had the effect of making the foreigner pay for the goods of our country.

A careful watching of the facts will show that when balanced one against the other the net result is in benefit to the taxpayer, but it is not the purpose of the rest of the people.

THE intention to cure our ills by the use of the tariff has been a failure, and the result has been that we have been forced to pay for the goods of our country, but it must be said that the tariff has also had the effect of making the foreigner pay for the goods of our country.

When one considers the ingenuity with which man has solved so many of the problems of the world, it is not surprising that the tariff has been a failure, and the result has been that we have been forced to pay for the goods of our country.

A buildinging army of volunteers have been doing up the work of the Red Cross, and the result has been that we have been forced to pay for the goods of our country, but it must be said that the tariff has also had the effect of making the foreigner pay for the goods of our country.

When one considers the ingenuity with which man has solved so many of the problems of the world, it is not surprising that the tariff has been a failure, and the result has been that we have been forced to pay for the goods of our country.

THE financial position of the world is a very serious one, and the result has been that we have been forced to pay for the goods of our country, but it must be said that the tariff has also had the effect of making the foreigner pay for the goods of our country.

It has been suggested in some quarters that the tariff has been a failure, and the result has been that we have been forced to pay for the goods of our country, but it must be said that the tariff has also had the effect of making the foreigner pay for the goods of our country.

Two Quartets Tied For Leadership Of 'B' Section Friday

Edmonton's representatives in the playoffs for the first time, Mel Strickland's curling championship of Canada may be known today, though there is a possibility it will not be decided until Monday. All depends upon the outcome of the first two games.

The first series, which is decided on a best-of-three basis, will see two teams being played today, with a third, if necessary, staged on Monday.

Mel Strickland, outstanding favorite of many close observers, definitely put his risk in the two rink rinks were battling for the remaining berth this morning.

Strickland, Northern Alberta banner-carrier last winter, will not be a part of the better support but he is likely to be given powerful opposition by either Mark Cunningham or Jack McInnes, who are fighting for the right to play him.

McInnes, incidentally, is skipping the rink known as Tommy McInnes. He fell ill after playing only one game of the local Brier series.

Playoffs for the senior hockey championship of Northern Alberta will start on Monday night at the Edmonton team of Lester, who Walter Hunter's Dominion will journey to battle the Edmonton team.

There is another game Wednesday night, when the Edmonton team will go into the Northern final. The Edmonton team, who are in the lead in the draw.

This final round will commence next Friday.

Dominion's opponents next a good move when Manager Hunt secured the services of Dan Carigan as coach.

Carigan, of the Edmonton, was originally coach of the team, but when the pros were away for such long periods, Carigan was asked to take the helm.

Carigan, who is a former player, was known to the team as the "A. C. Carigan" and he should be a big asset to the team.

Carigan will be in charge of the team in the provincial series.

Edmonton's team, which has a disastrous series of road games, they lost to Seattle, Seattle, and Seattle.

THE CURIOUS WORLD

By JULIAN FERGUSON

SEALS
ARE CARNIVOROUS MAMMALS OF THE SEA, DESCENDED FROM LAND-DWELLING ANIMALS. THERE ARE MANY SPECIES OF SEALS, BUT ONLY TWO FAMILIES... THE TRUE, OR HAIR, SEALS, AND THE FUR SEALS!

THE FUR SEAL IS NOT A TRUE SEAL, BUT A SPECIES OF SEA-LION! BECAUSE OF ITS VALUABLE FUR, IT HAS BEEN HUNTED ALMOST TO EXTINCTION. IT NOW IS HUNTED UNDER INTERNATIONAL SUPERVISION.

THE TRAINED SEAL, OF THE CIRCUS, ALSO IS A SEA-LION.

UNDER PROTECTION, FUR SEALS ARE INCREASING! THE ONLY LARGE HERDS TO BE FOUND ANYWHERE IN THE WORLD TODAY ARE LOCATED ON THE PRIBILOF ISLANDS, OFF ALASKA. HERE THE MOTHERS RAISE THEIR PUPS, WHICH MUST BE TAUGHT TO SWIM!

POLAR BEARS AND MEN ARE THE SEAL'S WORST FOES.

EVERY YEAR, THE FUR SEAL HERDS LEAVE THEIR ISLAND HOME FOR A SEA EXCURSION OF 6000 MILES, DURING WHICH THEY NEVER TOUCH LAND. (ROUTE OF EXCURSION SHOWN ABOVE)

THE HAIR SEALS HAVE LITTLE USE OF THEIR HIND LIMBS WHEN ON LAND. THESE LEGS HAVE BECOME SO MODIFIED FOR SWIMMING, THAT THEY CANNOT BE TURNED FORWARD.

THE ELEPHANT SEAL
IS THE LARGEST OF ALL SEALS! IT IS A HUGE, UGLY BEAST, 22 FEET IN LENGTH, AND GETS ITS NAME FROM THE ELEPHANT-LIKE SNOOT.

FRECKLES AND HIS FRIENDS

YA REALLY MEAN YOU'LL SELL ME YOUR RED SLED FOR ONLY A DIME?

YEAH! I'M GETTIN' KINDA TIRED OF IT!

JUST A MINUTE, YOUNG MAN! I WANT TO HAVE A TALK WITH YOU!!

I KNEW I'D CATCH THE KID WITH THE RED SLED WHO KNOCKED MY MAILBOX OVER!

GOSH! I DON'T REMEMBER DOING THAT!!

SEE THAT WINDOW? WELL, I WAS TOLD THAT A KID WITH A RED SLED BET HE COULD BREAK IT WITH A SNOWBALL IN ONE SHOT!!

YOU NOT ONLY BROKE THE WINDOW, BUT YOU ACTUALLY THREATENED TO, BEFORE YOU DID IT!... SO I KNOW IT WASN'T AN ACCIDENT! AND THIS ISN'T EITHER!!

GEE! I DON'T KNOW WHY PEOPLE PICK ON ME! I DIDN'T DO ANY OF THE THINGS THEY SAID I DID!

SO YOU'RE THE KID WHO BRAGGED THAT HE COULD SHASH MY SIGN BY RUNNING INTO IT WITH HIS RED SLED, EH?

IT ISN'T THE SIGN I'M WORRIED ABOUT... IT'S THE IDEA OF A FRESH KID THREATENING TO BUST SOME-THING, AND THEN GOING OUT AND DOING IT! NOW, SCRAM!!

I'M BEGINNING TO THINK THESE PEOPLE ARE MISTAKING ME FOR OSSIE, ON ACCOUNT OF THE SLED! MAYBE THAT'S IT!!

?

THIS BUILDING BEING WRECKED BY THE GOOLEY CO.

HONESTLY, MR. GROSS, I CAN PROVE I WAS HOME IN BED WHEN IT HAPPENED!!
